

Graduate Engineer / Technical Illustrator

Location: Letchworth, Hertfordshire
Salary: £18,000 increasing to £22,000 upon successful completion of training
Hours: 37 hours per week, with possible overtime
Contract: Permanent – 3 Year Development Programme

Sonovision UK provides a full range of Technical Publications to multi-national companies world-wide. We develop printed, electronic and online documentation, working to industry specific standards such as S1000D, ATA, JSP and DITA for the Defence, Energy and Aerospace sectors.

The role:

This is a fantastic opportunity to start your career within a major Technical Publications company. Working among our knowledgeable and experienced team within our Technical Publications department, you will get the exposure and training to develop your skills and progress your career within the Technical Publications industry. The role will be producing illustrations for various world-class manufacturers within the commercial, defence, aerospace, energy and rail industries;

- Creating Isometric Illustrations for customer Technical Manuals
- Compiling source data from the Customer Engineering Database to create Illustrations
- Manipulating 3D Models from the Customer Engineering Database
- Working closely with the Technical Authors
- Liaising with the customer engineering teams

To be considered for this opportunity:

You will need to be a Graduate that has studied engineering; Aerospace, Automotive, Electrical/Electronic or Mechanical engineering.

The right candidate will have the following skills and background:

- An understanding of Engineering Drawings, Manufacturer Production Processes and 3D Models
- Experience in a CAD related software package
- A pro-active approach to problem solving and investigation
- Strong communications skills and able to work as part of an international team
- The capability to manage multiple tasks at once
- The ability to remain flexible and adapt to changing customer requirements
- Drive and enthusiasm to achieve customer quality criteria
- The capability to work to tight deadlines with minimal supervision
- Ability work with a minimum of supervision

Please note candidates must successfully undergo UK Security Vetting before they can be appointed. The level of security needed is Security Check (SC).

Training:

As part of the 3 Year Technical Illustrator Development programme you will receive on the job training and will be required to complete the relevant software training for ISODraw.

Screening:

Do you have an engineering degree?

Have you an understanding of engineering data in a variety of formats, Drawings and Design Reports?

Do you have the ability to communicate technical information in a clear and concise manner?

Are you eligible to live and work in the UK, with a valid Passport?

If you are interested in joining our team, send your CV to:
