

Technical Illustrator

Location: Letchworth, Hertfordshire
Salary: Attractive packages
Hours: 37 hours per week, with possible overtime
Contract: Permanent

Sonovision provides a full range of Technical Publications to multi-national companies world-wide. We develop printed, electronic and online documentation, working to industry specific standards such as S1000D, ATA, JSP and DITA for the Defence, Energy and Aerospace sectors.

The role:

Technical Illustrator - Your position will involve:

- Creating Isometric Illustrations for customer Maintenance Manuals and exploded view illustration for Illustrated Parts Catalogues
- Compiling source data from the Customer Engineering Database to create Illustrations
- Manipulating 3D Models from the Customer Engineering Database
- Working closely with the Technical Authors
- Liaising with the customer engineering teams

To be considered for this opportunity:

You will need the following:

- Strong working knowledge of ISODraw CAD Process or Creo and technical drawing standards
- Good understanding of Quality Control processes
- Working with dedicated illustrating guidelines from customer requirements
- Good understanding of engineering data in a variety of formats from Engineering drawings to 3D CAD models
- Ability to communicate technical information in a clear and concise manner
- Adequate competency using different software packages for planning/reporting purposes
- A pro-active thinker that can provide potential solutions
- Ability to track production of tasks from conception to completion
- Drive and enthusiasm to achieve customer quality criteria
- Ability to work to deadlines and adhere to schedules
- Ability work with a minimum of supervision

Please note candidates must successfully undergo UK Security Vetting before they can be appointed. The level of security needed is Security Check (SC).

Screening:

Are you a technical illustrator, experienced creating Isometric Illustrations or exploded view illustrations?
Do you have a strong working knowledge of ISODraw CAD Process or Creo and technical drawing standards?
Do you have experience working with dedicated illustrating guidelines from customer requirements?
